

RE: FOIA Request EPA-R2-2019-000933

In response to the above-referenced FOIA request, the following CERCLA investigation reports/decision documents have been uploaded to FOIAonline:

- Operable Unit One Remedial Investigation Report
- Operable Unit Two Remedial Investigation Report
- Operable Unit Two Feasibility Study Report
- Operable Unit Two Record of Decision

Please note that remediation of the National Grid Wetland and Factory Avenue Soil Areas, associated with operable unit two (OU2), has been completed, however, the report documenting this action has not been finalized yet. The feasibility study for the GM facility (OU1) is currently underway.
